

Hints for the Householder

(By Betty Webster)

RED CROSS APPEAL

The Alberta Division of the Canadian Red Cross Society will make their annual appeal for funds from June 18th to July 8th.

The aim of the Red Cross has been Health and Service. In Alberta 18,147 school children have enrolled in the Junior Red Cross for the purpose of promoting health, happiness, citizenship and international friendliness.

The principal work of the Red Cross has been the care of the sick and crippled children. Since the Junior Red Cross Children's Hospital was opened there have been 1939 sick and crippled children who have received medical attention: 1078 Orthopedic cases, 497 ear, nose and throat, and 939 other cases. In addition, the Red Cross Society provides first aid and home nursing for the sick.

Visiting housekeepers' service to motherless families.

Hygiene by mail for the remote settler.

Relief in emergency and disaster. Visiting of ex-servicemen in hospitals and co-operation with existing agencies in co-operation cases.

You are asked to help carry on this humanitarian work by enclosing your contribution in the envelopes which are being distributed during the campaign in your district by Red Cross representatives.

DON'T LET COMMON CONSTIPATION DULL THE JOY OF LIVING

Kellogg's ALL-BRAN Brings Relief

Constipation takes the sunshine out of your days. It may bring headaches, loss of appetite and energy, sleeplessness, sallow skins, pimples. If neglected, it can seriously impair health.

Fortunately, you can avoid this condition by eating a delicious cereal. Kellogg's Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to overcome common constipation: "bulk" and vitamin B. ALL-BRAN is also a rich source of blood-building iron.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much better than dosing yourself with patent medicines. Two tablespoonsful of ALL-BRAN daily are usually sufficient. With each meal in chronic cases. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Do Not Suffer From Dyspepsia Eat the Foods You Like

Farmers, Attention!

BEFORE BUYING MACHINERY of any kind get my prices

Mail Order Houses can't compete for prices or quality, and all my machinery is of the latest model

YOUR BIGGEST DEALER IN TOWN
GEO. A. LONG
75 cents wheat contract got nothing on me

If I could be a flower-child. Do you know what I'd be? I wouldn't be a pansy. Or a rose, or a sweet pea. I'd choose to be a hollyhock. And grow so straight and tall, That I could see the whole wide world Beyond the garden wall.

Do You Know—

How to play the game of "Bird, Beast, or Fish?" It is great fun and can be played with any number of people.

The players are seated in a circle and one is chosen to go to the center. There he walks around for a moment, stops suddenly and, pointing to one of the other players, says either "Bird," or "Beast," or "Fish," and counts from one to ten as rapidly as possible. Before the number ten is reached, the player at whom he is pointing must name a bird or a beast or a fish, as the case may be. The player must name a "bird or beast or fish" that has not been named previously before the final count. If he fails he changes places with the one in the center and the game goes on.

This is a great deal of fun and keeps everyone thinking. Try it!

It's a Fact That—

1. Stale bread will absorb the moisture from a fresh loaf and should never be put in the bread box with fresh bread.

2. June is the month for canning fresh berries. Patent leather shoes will retain their newness indefinitely if they are warmed before wearing and wiped with a soft cloth, stuffed with tissue paper and dried thoroughly after wearing.

Strawberry Marmalade

5 cups of rhubarb, cut small without being peeled.
1 quart of strawberries
5 cups of sugar
Mix ingredients without water; strawberries, pineapple and rhubarb. Cook slowly until thick.

Stained Glasses

Stained glasses are very nearly as undesirable as nicked china. The nicked china is made right, but the stained china can. Take either a mixture of vinegar and salt or lemon and salt and rub well over the stain. Then wash thoroughly and glass will resume its clearness.

Use for Clothes Pins

Use pinch clothes pins for pinning bed room curtains back. The clothes pins can be made very pretty by painting them to blend with colors in the room.

Huckleberry Surprise

One package lemon icing
Five heaping tablespoons huckleberries.
One pint milk (half cream if desired).
Sort and wash berries and place a heaping tablespoon in each of five dessert glasses. Prepare junket according to directions on package, using the pint of milk. Pour at once over berries. Berries will come to the top and make a tempting dish. Let stand undisturbed until firm—about ten minutes. Chill and serve.—(Copyright.)

Owen Blake, Sexsmith, was sentenced Thursday by Mr. Justice Gwing to four years in the penitentiary for having administered arsenic to his brother and sister-in-law. The case was tried at Grande Prairie during the week.

B. B. B. is not a new and untried remedy.

A GOOD FARMER

Some city people and city newspapers are enthralling themselves over plans to place unemployed people on farms in order to relieve the municipalities of the heavy expense of maintaining these people in a state of idleness in urban centres. This idea of placing unemployed people on the land is fraught with danger and we warn the backers of such schemes to go slowly.

Contrary to popular opinion in some quarters, farming is not an occupation that requires a great deal of ability. Only long years of experience and application can turn out a good farmer and the individual must at that, have liking for the job and a good deal of adaptability.

A good farmer must first of all be a hard and consistent worker for he will find plenty to do and he will be his own boss insofar as outlining and performing his tasks are concerned and consequently must have plenty of application. Then a farmer must be somewhat of a philosopher. He must accept the vicissitudes of nature as they come. An understanding of the soil is a primary necessity for a good farmer; also a fair knowledge of plant life. In other words he must be something of a botanist. He must know how and when to use the various implements of land cultivation, the proper crops to grow and how and when to seed and harvest them.

The good farmer must know how to raise farm animals. Pigs, cows, sheep, chickens and horses are all subjected to different diseases and ailments and must be properly looked after from their birth onward. Only an experienced farmer realizes the infinite variety of knowledge required for that undertaking. Animal husbandry really should be a separate business of its own, but the good farmer must make it part and parcel of his job.

The good farmer must be a mechanic. He should have a smattering of blacksmithing, a pretty fair knowledge of carpentering, and understanding something about the craft of harness making. His wife, of course, must know how to wield a paint brush and be a first class gardener, besides. If there is a tree or an apple on the farm the boy should be an auto mechanic.

A good farmer must be a good business man. He must be a book-keeper, chief purchasing agent, sales man, book-keeper and banker combined. He must understand the econ-

omy of farm operation and accommodate farm income thereto. Besides all this a good farmer should be a good citizen. He should take an interest in municipal affairs, matters in the school district, church and school and in his marketing center. He should be interested in local sports and social events. Also he should be well informed in provincial, national and world affairs.

Yes, the good farmer must be pretty much of an all-round man. To expect to take an assessment of unemployed people from city life, plant them down on farms, and expect them to make a success is looking for too much. It simply cannot be done and will only result in useless expenditure of money as well as much disappointment and misery.—Hanna Herald.

DARING BURGLAR STILL IS PUZZLING DETECTIVES

"Glimet" Jimmy, the most daring and elusive burglar in England, whom detectives have been trying to capture for 11 years, carried out two robberies involving £13,300 in cash early on a recent morning with lightning swiftness.

The problem facing the police in their hunt for Jimmy is that they have no notion of his appearance.

Nor has he ever left behind him a single clue which in the event of his capture would definitely establish his identity with his previous crimes.

Only once has a glimpse been caught of him. This was six years ago when, in carrying out the greatest coup of his career—the raiding of a Deansgate, Manchester, bank—the night watchman saw Jimmy for a fleeting instant as he ran past a door in making his escape.

But Jimmy, who nearly always confines his activities to the north of England, has one invariable method of approach.

For weeks he watches and learns the habits of his intended victim, usually a wealthy shopkeeper.

Then comes the night when Jimmy begins work.

He visits to his victim's house for the keys of the shop and any valuables in the home safe.

Afterwards, armed with the keys, he enters the shop.

On the latest occasion Jimmy entered the home of W. Smith, of Ash-ton-on-Mersey, and, without waking the owner, took a bunch of keys from the bedside and opened a safe in the house, from which he took £300.

Half an hour later Jimmy had taken £10,000 from the safe of Mr. Smith's shop in Gorton.

Jimmy, whose name of "Glimet" comes through his peculiar method of entering a house through a window, is estimated to have secured more than £100,000 by his burglaries.

The Robin Hood flour mills announced a 10 per cent wage increase effective July 1. Improving business was given as explanation.

ABOUT TOBACCO

(By Dr. William J. Scholes)

Whenever a man reaches the overripe age of ninety he is asked for an interview on how and why, in his opinion, he lived so long. Old Uncle Ebenezer will answer that it is because he "never touched tobacco." The following week, Grandpa Snodgrass—another nonagenarian—come out with a statement, between puffs at his pipe, that he's "been smoking since he was eleven years old." It's the old story of the personal equation.

Tobacco had some bitter enemies, and most of the warfare has been waged against the cigarette, whose strongest opponent was Lucy Page Crockett. She never said much against pipes and cigars but concerned her efforts against the cigarette—no knowing that, despite popular belief, the latter are the least harmful of the three. And while I am on the cigarette, let me say that all the talk about the pipe being the harmful part is pure nonsense.

Inhaling Harmful

The harmful effect of smoking consists in the inhaling of nicotine. As tobacco and nicotine, the smoker gets depends not on the kind of tobacco, but the manner in which he uses it. During the burning of tobacco let us say of a cigar—there is behind the seat of combustion a moist area in which the water and volatile substances are conveyed and drawn into the mouth with the smoke. Inasmuch as there is enough nicotine in the average cigar to kill an ordinary man, the nicotine in the remainder of this is inhaled, the remainder being destroyed by the process of combustion.

Obviously, then, the larger this moist area of condensation the more nicotine will be volatilized and inhaled. It follows that cigarettes and panatellas are the least injurious, while thick cigars and pipes are the most harmful. Also, the longer a cigar is smoked the more harmful it becomes, because of the increased amount of nicotine.

Every smoker knows that a thin cigar is not as "strong" as a thick one, and that the first two-thirds of a cigar are milder than the last one-third.

As for pipes, the long-stemmed kind are preferable to the short-stemmed, because when the smoke passes through a long stem it is cooled and the volatile substances are deposited along the lining of the stem. In the short-stemmed pipe the smoke is still hot when it enters the mouth, and all the volatile substances are inhaled.

The time of day one uses tobacco has considerable bearing on its effects. Thus, smoking a cigarette before breakfast is as injurious as are three "tills" after. Smoking "on an empty stomach" is more injurious than it is after a full meal. Smoking between courses at dinner is bad. It retards digestion.

The use of tobacco is, however, harmful to anybody, man or woman, whether used moderately or excessively. The harm is, naturally, like everything else, a matter of degree. Some suffer less ill effect than others.—(Copyright.)

IT WAS DIFFERENT IN THOSE DAYS

We have often heard people saying that the pioneers never got any assistance when they came to this country. Probably this is true.

They got in here and had to make it stick. They had no way of getting out.

But there are other things to consider. The pioneers were not paying for paved roads.

They were not paying for an expensive school system.

They were not paying to help keep an army of inspectors busy.

They were not buying things on the installment plan.

They did not have to invest hun-

ORANGE PEKOE BLEND "SALADA" TEA

"Fresh from the Gardens"

dreds of dollars in harvesting machinery, nor did they have to keep it in repair.

They did not have to pay for interest on government debts.

All honor to the pioneers, but let us remember that they had not bump-

ed into the load of taxation which the farmer of today has to carry.—Bursells Post.

Henderson's Edmonton directory just issued, gives the city a population of 50,000.

ONLY FIRESTONE gives you all these EXTRA VALUES

NEVER before have so many people been changing over to Firestone Tires. They know that they can buy Firestones with full confidence of getting the most mileage for the least amount of money, for only in Firestone tires can you get all these extra values—that give 25 to 40% longer tire life—at no extra cost.

- 1 Two Extra Cord Plies under the Tread
- 2 Gum-Dipped Cords
- 3 Balanced Construction
- 4 Non-skid Tread with 25% more wear

Firestone tires are fully guaranteed for 12 months but made to last much longer.

In these days when you have to make one dollar do the work of two, be sure you get your money's worth. See the nearest Firestone Dealer today. Let him equip your car with the strongest, safest and most economical of tires.

Cut Plow-Share Costs in Half with the Bradley "Armor-Point" Double Life Shares

MATERIAL
SCIENTIFICALLY PREPARED MATERIAL IS USED THROUGHOUT IN THE BRADLEY "ARMOR-POINT" SHARE. THE VERY HIGHEST CARBON-CONTENT STEEL IS USED IN THE POINT. EXTRA HIGH CARBON STEEL IS USED IN THE ARMOR AROUND THE POINT.

FIT
THESE SHARES IN SHAPE AND FIT ARE EXACT DUPLICATES OF THE ORIGINAL SHARES YOU GOT WITH YOUR PLOW. BOLT HOLES ARE ALWAYS IN THE RIGHT PLACE.

WELD
EVERY BRADLEY "ARMOR-POINT" SHARE HAS AN EXTRA WIDE LAP WELD THAT HOLDS AND THE WIDE LAP STRENGTHENS AND STIFFENS THE SHARE.

THE POINT IS ARMORED
BOTH ON THE SIDE AND ON THE BOTTOM OF THE SHARE IS THE HARD, STEEL ARMOR. NO OTHER SHARE IS ARMORED. THE ARMOR BEATS THE SHARE AND THE SHARE BEATS THE ARMOR. THE ARMOR IS THE POINT'S PROTECTIVE COAT. (PATENTED)

Don't Buy Ordinary Soft Point Shares

For over 100 years (since 1832) the Bradley Company has been making steel plows and plow shares and is the sharpest of the field. No other share regardless of make or price equals the Bradley "Armor-Point" share. Mr. Wm. Lester, of Foremost, Alberta, says: "... with the 'Armor-Point' share I am able to get just twice as much wear as out of any of the other makes." Start now to save money, and time, and to get better plowing satisfaction all round by using only Bradley "Armor-Point" shares.

Neighborhood News

HILLSIDE

The sports ground committee have been busy getting the new community ground in shape for the picnic on Saturday.

Messrs. Ambrose, Ivan Swartz, W. Rintz and J. Hoskins were visitors to Edmonton last week and attended the junior conference at the University of Alberta.

The Soldier Settlers' Union held their first 600 party at the home of Mr. and Mrs. Frank Loader last Friday evening. The first prizes were won by Mrs. Martin and Mrs. E. R. Hoskins and the consolation by Mrs. Hoskins and Chas. Robinson. The members of the Union wish to thank Mr. and Mrs. Lathe for the splendid prizes donated by them.

For the last two weeks Advent meetings have been held in the school house. There has been a large attendance at all meetings and great interest shown. These meetings will continue till the last of June.

All roads lead to the school house on Saturday the 24th, when the U.P.A. picnic will be held. There will be sports for old and young with a dance in the evening.

PIGEON VALLEY

The Fletcher school softball team played a very interesting game with the Mound Red school children on Friday last. The result was 17 to 11 in favor of Mound Red.

Mrs. A. Sharpe's mother, Mrs. Lomas of Calgary, is visiting at the home of her daughter.

Miss N. Timofeev and the Falun school softball players motored down to Pigeon Valley for a practice game last week. Everything was played fair and square, which made the game enjoyed by all present. But luck was with Falun once more and the score was 21 to 15.

Frank Sheppard left for a motor trip to points in Saskatchewan. We wish him a pleasant holiday.

On Sunday the Pigeon Valley girls played a softball game against Mound Red. The players were very evenly matched throughout and the umpire favored no one. This added greatly to the enjoyment of the game. Nine innings were played and Pigeon Valley came out on top.

Sunday evening the Valley boys held a meeting at the home of Mr. P. Stone, at which they re-organized their baseball and football teams, besides electing new managers and captains. We hope everything runs smoothly now. The girls played softball, and later everyone enjoyed ice cream and cake.

Breaking is in full swing in the Valley. The crops and gardens are looking good yet, but are badly in need of rain.

Several of the young people of this district attended the old time dance at the Elite hall last Wednesday. They thought the music was splendid, and all reported a good time.

Bert Westmoreland is home again, after working on the farm of H. O. Ray since last fall.

Mr. and Mrs. Sager and family are new residents in the Pigeon Valley district.

FALUN

Tuesday evening of last week the football team motored to Ponoka to play a football game with the Ponoka United team. The score ended 4-3 in favor of Falun. On Thursday the boys

were to play Camrose on the Falun grounds but Camrose was unable to come so no game was played.

Last Wednesday afternoon a number of friends of Edna called to help celebrate her birthday and pleasantly surprised her. A dainty lunch was served after a game of ball which was very much enjoyed. They all left with best wishes to Edna.

Mr. and Mrs. A. Hagen of Edmonton, spent the week-end at the Edin home.

Sunday afternoon a large turnout from Pleasant Prairie came to the Falun sports ground where a baseball game, between the Pleasant Prairie and Falun boys was held and also a softball game between the girls and the Live Wires. The Live Wires played a very good game and held the Pleasant Prairie girls well in hand. The score was 20-2 in favor of the Live Wires. The baseball teams played a very nice game throughout, with the score ending 13-6 in favor of Pleasant Prairie. Forbes Atkinson was umpire for the baseball game.

Miss Myrtle Owen of Wetaskiwin is spending several days at Falun, the guest of Miss N. Timofeev.

RITTERN LAKE

Mr. and Mrs. A. Howarth and children of Edmonton, who have been spending a couple of weeks visiting relatives here in the Rittern district, returned to their home last Sunday.

BORN—To Mr. and Mrs. Harold Howarth on June 18th, a daughter, in St. Mary's Hospital, Camrose. (Barbara Gwen).

A. L. Peterson is drilling a well for Mr. Larson, north of Gwynne.

E. W. Wainwright is in the neighborhood of hoes to Wetaskiwin Monday.

Wm. Popowich left for Mayerthorpe on Sunday, where he will visit relatives here in the Rittern district.

Miss Jessie Richmond of New Norwalk, visited over Sunday with her folks here.

Mr. David is out at Winfield visiting his son Tom and family.

Harris Gouche, who has been working for E. W. Alim since last fall, is home, taking it easy for a while.

NAVARRE

Nearly all the farmers are through spring work the fields, but a few still sowing grain feed.

The school children are busy writing their final exams.

The district welcomed this week by the death of Mrs. L. O. Pelland, who has been a highly esteemed resident here for many years.

Mr. David is out at Winfield visiting his son Tom and family.

Harris Gouche, who has been working for E. W. Alim since last fall, is home, taking it easy for a while.

P. Ochs has been engaged to plow five farms around the school building and fill in the school yard.

The Bulby district is pleased to learn that our teacher, C. D. Williamson has consented to continue as teacher for another year.

Mr. and Mrs. Andrew Gens are being congratulated on the arrival of a baby daughter.

Roland Wager of Wetaskiwin, is spending his holidays at the home of his sister, Mrs. C. Nelson.

Miss Martha Kasur who has been spending some time at Bitters Lake with her sister, Mrs. Ed. Walters, returned home Monday.

Mr. and Mrs. J. A. Rhodes and family are in Edmonton on Saturday guests of their daughter, Mrs. L. L. Bergen.

Mr. and Mrs. T. R. Wager and family of Wetaskiwin and Mr. Stollery of Edmonton, were Sunday visitors at the C. Nelson home.

J. McLean, who has been visiting at the Pattison home, left for Meeting Creek on Sunday.

Miss Lydia Dewald is spending some time at her father's farm west of Hobbema.

The many friends of Henry Kasur,

who underwent an operation in the Community Hospital on Saturday, are pleased to learn he is convalescing nicely.

Mrs. J. Shantz had the misfortune to break a bone in her foot a few days ago.

Mr. and Mrs. H. M. Korstad and family of Meeting Creek, spent Sunday at the home of Mrs. Nelson, sr. Miss Susie Ochs is assisting at the J. Shantz home.

Miss and two little sons of Colfax, Wash, and Mrs. A. W. Anderson of Wetaskiwin, were guests at the C. Nelson home on Tuesday.

The teacher Leanne held an enjoyable meeting at the Lundell home on Tuesday evening when they had a large attendance. Mr. and Mrs. W. Forman, Anaconda, Mont., and Rev. Franzén of Edmonton, were guests of the league.

Mrs. C. C. Malmas, Miss Anna Malmas and Mrs. Malmas, sr., left on Monday on a motor trip to Winnipeg, where they will visit for a few weeks. Mrs. Malmas is the mother of the late Mr. E. B. Reimer, who, with the Misses Alice and Esther Dahlberg, acted as joint hostesses.

HAULTAIN

A pretty surprise shower was held in honor of Miss Marguerite Elkermann, popular bride-to-be, on Thursday afternoon, June 15th, at the home of Mrs. E. B. Reimer, who, with the Misses Alice and Esther Dahlberg, acted as joint hostesses.

The living-room was prettily decorated in pink and white color scheme. After the guests had all arrived a humorous mock wedding was staged. To the tune of "Swanee" played by Miss R. Johnson, the bride party entered the living room. These taking part were: Bride, Miss Dahlberg; bridesmaids, Miss N. Timofeev, Mrs. G. Thirsk; ring-bearer, Wilfred Holmer, and flower girl, little Miss Fern Riemer.

Mr. and Mrs. Elkermann gave a very appropriate recitation. On behalf of those present, Mrs. Axel Holmer wished the guest of honor a very happy wedding life, with days full of sunshine, and the dark and cloudy days few and far between.

A pink and white bachelorette loaded with gifts was then carried into the room by Master Tommy and little Miss Pauline Watson and presented to the bride-to-be. Miss Marguerite Elkermann, who was in charge of the party, thanked her many friends present. The large number of beautiful and useful gifts showed the high esteem in which the bride-to-be is held.

At the close of the program several of the young ladies sang "Believe me, I'm new wedded" and "Young Charm."

A delicious lunch was then served, followed by ice cream, and a pleasant hour was spent.

As Miss Elkermann has always been an active member of the younger set of the district, always cheerfully lending a helping hand, and best wishes of all her friends go with her in this new venture in life.

MILLET

The senior girls of the Millet United Sunday school met Tuesday the 13th, for their last meeting of the season. The first part of the evening was spent in an enjoyable manner.

After the game they all returned to the church where games were played and refreshments served.

They closed their meeting by joining in a circle and singing "For he's a jolly good fellow," and "Auld Lang Syne," for those leaving through the summer holidays. All report a very enjoyable time.

MILLET W.I. CELEBRATE 20TH ANNIVERSARY

The June meeting marked the twentieth anniversary of the founding of the Mother's Club of West Liberty.

Since this was the club which the Millet Institute grew, a picnic was held to mark the occasion. The original members of the club, ex-members of the Institute, members, and husbands were invited. About eight of the original members were able to be present.

At one o'clock about forty sat down to a bounteous picnic lunch spread under the trees at the home of Mrs. T. Hoves.

Following lunch the members and the visiting ladies held their meeting. "A Canadian Product I Use" answered the roll call. After the business period Mrs. Hoves gave a very interesting paper on "Buy Made-in-Alberta Goods."

She stressed the importance of buying Alberta made goods and thus keeping our money at home to help the unemployment situation here. She cited examples of Made-in-Alberta goods, including sugar, soap, candy, many kinds of food, clothing, pottery, etc.

Mrs. Phillips, on behalf of the Institute expressed regret at the departure of Mrs. H. Smith, who will soon be leaving for Huggenden. In concluding she presented Mrs. Smith with a gift of towels. Mrs. Smith replied with feeling.

Mrs. T. Scott brought some old pictures of the Institute in former days and a jolly time was spent in discussing these.

Before the meeting adjourned it was decided to hold the next meeting July 12th at the West Liberty school, since many of the members will be there at the Dairy Club picnic. It will begin at the usual hour, 2:30, and will be quite brief. However, we hope all the members will make an effort to be present as matters relating to the coming conference will be settled.

Ice cream, cake and lemonade was served and some snapshots taken.

In all it was a great day. Even the weather was just what was needed with the very warmest June day.

W. B. Lupton brought into the office a sample of rye from Battle Lake which measured over five and one-half feet in length.

COMMUNICATION

[We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.]

To the Editor of The Times.

Dear Sir:

On the eve of our departure from Millet we wish publicly to express, through your columns, our appreciation of the wisdom and care of the School Board in the execution of its duties. We cannot speak too highly of the moral quality and general efficiency of the teaching staff of this school during the last three years. We think it would be hard to find a better managed school. We have had seven children in attendance and at least one student in each room, so have been, as no other family in the community, in touch with the whole school life. We wish also to mention the genial and painstaking janitor, who has added not a little to the discipline and general tone of school activities. We believe in years to come, our children will look back upon their 19 years of school life in Millet, with the childhood companionships and under the influence of such a staff, as one of the most wholesome and happy periods of life's journey.

Yours sincerely,

Rev. and Mrs. H. G. SMITH, United Church Parsonage, Millet.

The Editor:

Wetaskiwin Times.

OPEN LETTER TO THE WETASKIWIN SCHOOL BOARD Gentlemen:

Your board is becoming about as popular as ex-President Hoover, R. B. Bennett and Hector Charlesworth, of the Radio Commission. Your board's action in appointing, in relation to a vacant position on the Public School Staff, and without the usual formality of inviting applications through advertisements, a relative of one of your own sitting members looks very much like a breach of public confidence.

In fairness to the children of the city your board should make no effort to enhance the most competent and experienced teachers. The best are available only to the preference of teachers for positions in city schools.

The granting of a teacher's certificate is not evidence of teaching ability. This has to be developed through experience in actual teaching. Whether or not such ability is actually developed in a high degree depends upon the individual temperament, personality, as well as the degree of interest in, and a peculiar genius for, teaching.

Unless these qualities have been developed and demonstrated in applicants for city schools their applications should not be further considered.

A first class certificate given a teacher may mean no more than evidence of a good memory. It is no guarantee that the subjects studied are well understood. Nor is it the least guide to the temperamental suitability for the profession chosen.

This inherent weakness in our educational system imposes upon your board the responsibility of most careful consideration of applications put forward. Wetaskiwin schools with their large classes is no place for a teacher to develop his or her teaching ability. The consequences are too serious; much more serious than an unprofitable season in a small rural school, in the event of the teacher's failure.

It is to be presumed that the board's action in regard to the High School is justified on the grounds of educational efficiency; but the action of your board in appointing, with undue haste, and without proper public invitation to potential candidates, a teacher to a vacancy in the public school, a relative of one of your own members, lays your board's actions open to the gravest criticism as to your board's efficiency as custodians of our children's educational welfare.

It is not, therefore, surprising that rumors of further appointments to the High School vacancies are likely to be filled from the ranks of other relatives of board members. This rumor, like the majority of rumors, is probably untrue, but your board is directly responsible for its birth.

Your board has fenced in a school yard. Let it not be said that teaching-ability is to be fenced out of our schools.

Yours sincerely,

U.F.A. Sunday will be observed this year on Sunday, June 25th, at Lone Ridge Hall. The meeting will commence at 3 p.m., the speaker for the occasion being J. Russell Love of Wainwright. A hearty invitation is given to everyone to attend this meeting.

HOW ELITE SEED IS PRODUCED

The following is the statement of Major Strange of the Searle Grain Co., telling how Elite seed is produced.

The professional plant breeder at a University or Dominion Experimental Farm as a rule has in his mind the conception of a new superior variety, for instance Marquis was designed to be of high milling and baking value and to be a few days earlier than Red Fife which was caught by the frost in most years. Reward wheat was designed to have the same milling and baking value as Marquis, yet to be in turn a few days earlier than Marquis even.

With this ideal in mind the plant breeder will make thousands and thousands of crosses between different varieties. Perhaps the variety used as the male will be very early and of high milling and baking value, but of poor milling value. Perhaps the variety used as the female may be of high milling value but very late. The mathematical probabilities are that out of such a cross you have one chance in a million of identifying one of the progeny that will be earlier and of high milling and baking value than the plant breeder is lucky indeed if he can produce such progeny and if he can recognize it after he has produced it. Hundreds of thousands of crosses have been made that have produced nothing worth while. The next step after the plant breeder has identified a plant reasonably

"Good-Bye Uncle Jack"

Said Vera Fleck, (left) and Lyette Teppaz, as they shook hands with Captain R. G. Latta, and left the Canadian Pacific liner Empress of Britain for their last voyage to Montreal on their way to Chicago where they are contestants in the selection of a "Queen" of the Century Progress Exposition. No matter what the contest results Vera and Lyette will carry memories of a thrilling first voyage home with them. The Empress of Britain, one of the world's fastest liners, broke two records for speed, and a combination of fast ship, fast plane and fast train gave the two pretty girls the distinction of being the fastest voyagers from London and Paris to Chicago ever recorded.

They travelled so fast the way that Miss Teppaz, who lunched in Paris, Friday, May 13, found herself breakfasting less than six days later in Chicago, May 19. Miss Fleck's record was from break fast to breakfast. Canadian Pacific officials arranged every detail of their entire journey which, with the exception of two hours and fifty minutes in the air, used the facilities of that organization.

GENTS 25c

up to the ideal he is aiming at is to isolate it and put it in a foundation of say 100 separate seeds, planted approximately six inches apart.

If anyone of the plants breeds reasonably true to type (there will of course be minor differences) then the strain temporarily is an accepted one. Then a number of single plants are taken and are multiplied in further testing plots and the progeny carefully examined year by year and ruthlessly discarded if it develops any defects. At the end of say five or six years evidence is available, and the material are then given to a dozen other Experimental Farms and Universities for testing in different localities. Here enter the milking tests. If all goes well for the next three years, or sometimes five years, if the reports are consistently good and the new strain or variety is demonstrated to be decidedly an improvement over the old strain, then an application is made to the Minister of Agriculture for a license for this new variety. A special committee appointed by the Minister collects and investigates all the material, and at their discretion do or do not issue a license for the new variety.

This having been done then the evidence is presented to the Canadian Seed Growers Association. This organization, in turn, appoint another technical committee, who recommend plan or a private breeder supplies a quantity of seed, and at their discretion do or do not issue a license for the new variety.

Provided it is granted this status, then the originator of the variety, whether University or Experimental Farm or private breeder, supplies a very small amount of this foundation to a few growers of the Association who are termed Elite growers. These men take this material and plant it in head rows, putting in at least 100 head rows. These head rows are carefully examined by an expert plan breeder—those developing any defects or that are not up to the full standard are eliminated or burned, and not less than fifty are the next year multiplied in separate plots.

Again these are carefully examined, weak ones discarded, the balance are multiplied again next year in individual and separate plots. If all is well and they continue to pass the examination year by year of critical plan breeders, the following year the plots are bulked together and the seed is multiplied on a carefully isolated clean field under supervision of the Association. It extends to a maximum of three acres. Every plant in the three acres is then examined in the standing field by an Elite seed inspector. If not more than one off-type or inferior plant is discovered in each 20,000, then the field is accorded the status of Elite seed and the grower is privileged to multiply this Elite seed the next year on supervised clean breaking or summerfallow and to produce First Generation Registered Seed, sealed in the sack, after testing for germination and purity, and to offer this for sale. This is the first product that is saleable after all these years of work and is called First Generation Registered Seed. This multiplied the next year produces Second Generation and so on and so on.

Elite seed, therefore, can be termed the mother plant of registered seed, but Elite seed itself has taken probably 15 years to produce after the ideal was conceived in the minds of the plant breeder. Elite seed is not a commercial product and is not allowed to be sold by the C.S.G.A. excepting on odd occasions by one plant breeder to another.

After carefully studying the innumerable steps and the tremendous amount of work that has to be undertaken before First Generation Seed is produced, one will no longer wonder as to why this material is worth a good substantial premium over commercial grain that goes into the elevator.

The above information has not often been published. If it would be of interest to your readers I suggest it might not be had plan to publish the above statement, and if you care to you could put my name to it as former President of the Association, as a producer of Elite seed, and as chairman of the committee that has the responsibility of instructing the growers of the Association as to their

duties and responsibilities in producing the above material.

Trusting this is of interest to you, I am,

Yours very truly,

H. G. L. STRANGER

1/2 THE TIME

You waste in looking up domestic help could be saved by simply inserting a "Help Wanted" ad. In our Classified Columns. Our paper is read by the desirable class, and goes into hundreds of homes that get no other.

Ye Olde Days

(From The Times, June 10, 1902)

J. W. Herle is erecting a building adjoining his store, where he will conduct an ice house and a grocery.

Wetaskiwin now boasts having one of the most up-to-date post offices in the west, after the re-arrangement.

John West sold a lot between Ward's drug store and the butcher shop to a Lacombe man for \$1000. As soon as a building is erected it will be used as a bakery and retail.

Owing to ill health, L. T. Miquelon has been compelled to give up the butcher business.

There is a great boom on in Wetaskiwin. This is the point from which the Beaver Lake and Vermilion districts are easiest reached and the place is crowded with settlers on their way to these districts. The roads are in the worst possible condition but does not deter the hordes of men from going forth in search of land.

The Reserve correspondent says: "Since Wetaskiwin is now a town with a mayor and six aldermen we hope they will not now allow anyone to induce the Indians to give their dances there at treaty time as it is a drawback to the work the missionaries are trying to do and it also retards the work to civilization and progress."

At last Edmonton will have a woolen mill and wool growers will have their product manufactured at home, and save freight both ways.

Sleepy After Meals?

Watch For Poisons

A dopey, tired feeling is usually a sign of bowel poisons, that breed germs. Get rid of them with Adolfin. Acts on both upper and lower bowels without discomfort. Stock's Drug Store; in Millet by Allin & Ben's Drug Store.

Edmonton County Royal Scarlet Chapter of the L.O.L. came to Wetaskiwin and visited Geo. R. Campbell. These, Spencer and P. J. Morris to the Royal Scarlet Degree.

The Chinderella Club gave a farewell dance to S. J. Gaunt.

W. B. Lupton brought into the office a sample of rye from Battle Lake which measured over five and one-half feet in length.

CANADIAN TRADE

The Canada-France trade treaty went into effect on June 10, to continue to May 12 of next year.—Wheat exports from the first of August to the first of June were 197,834,030 bushels, an increase of 57,000,000 over the same period of the preceding year.—For nine consecutive weeks, an up-grade was maintained in Canadian stock and mining exchanges.

The Times does commercial printing at right prices.

Town Topics

Mr. and Mrs. O. C. Shantz motored over from Vancouver a few days ago on a visit with relatives and friends.

The foundation has been completed for a handsome residence which is being erected overlooking the park by Dr. J. C. Shillaber.

Miss Marion Lundell, who has been visiting her sister, Mrs. Swensen at Lake Park, Minn., for the past year, returned home a few days ago.

Ed. N. Peterson and mother arrived a few days ago from Sandpoint, Idaho, to visit the former's sister, Mrs. J. E. Haukedal and old friends for several weeks.

The Odd Fellows and Rebekahs held a Memorial Day on Sunday afternoon last when the graves of over thirty members were visited and marked by three links.

Mrs. W. J. Gable underwent a very serious operation in the Community hospital a few days ago. Her many friends are glad to know she is improving as well as could be expected.

Miss Helen Johnston, Mrs. Fred Sutherland and daughters Lois, Marion and Eileen were visitors at the home of the former's parents, Mr. and Mrs. E. B. Johnston, north of Wetaskiwin last week.

The final meeting of the Wetaski-

SPORT

WETASKIWIN-DAYSLAND
TIE FOR SECOND PLACE

The local baseball team was edged out 4 to 3 at Daysland on Tuesday in a real snappy game at Daysland in the league schedule, the winners tallying three counters in the opening game, Farewell hurled a highly creditable brand of ball and Harney, a new-comer from Edmonton, worked nicely on the receiving end. Daysland and Wetaskiwin are now tied for second place in the league, and the game here on Friday evening should be a thriller. Daysland has a snappy aggregation of ball tossers garnered from various points on the east line, Speers and McMillan being the winning battery in Tuesday's game. With the league drawing to a close preparations are under way to bring a number of Edmonton senior league teams here, and the locals will also shortly be busily engaged in the provincial play-offs. Friday nights are baseball nights each week at the ball yards, and this Friday's encounter will be a snorter.

THORN FIELD DAY AT JACOMBE, MONDAY, JULY 17

Dominion Experimental Station, Jacombe, is centrally located in the province. The large grounds provide excellent facilities for the holding of "Field Days" and with a very large number of experiments under cover, live stock, poultry, horticulture and field crops, re always many object lessons and benefit farmers. During summer a number of field days will be held at the Experimental Station, but one of the most interesting should be the Shorthorn

Breeders' Day on Monday, July 17th. This field day will be held under the auspices of the Alberta Shorthorn Breeders' Association, and they have been fortunate in having the Hon. Robert Weir, Minister of Agriculture, and Dr. Barton, newly appointed Deputy Minister of Agriculture for Canada, present on this occasion. Mr. Newman, Dominion Cerealist, and Mr. Muir, Dominion Animal Husbandman, will be with the Minister.

LIBRARY NOTES

A consignment of new books has just reached the Wetaskiwin library, among them the following:

"Royal Flush," by Margaret Irwin. An historical novel in the time of Louis XIV. with, for a change, real characters as a background. An interesting well written book for the better reader.

"Desert Sand," by Margaret Pedlar. In England and Egypt the charming Toni experiences a host of adventures—to become an heiress—to be pursued with ruthless resolve by the wrong man—and finally by a sequence of exciting events, to retrieve her love and happiness beneath the splendid Eastern skies.

Members are notified that the library will be closed during July and August unless arrangements can be made for opening during the hours of two to five o'clock on each Saturday afternoon during these months. All who wish this arrangement should notify the Librarian in the Library.

WETASKIWIN SCHOOL FAIR
The committee wish to thank all those who assisted at Angus Ridge hall in the concert and dance for the benefit of the Fair. By their effort the funds were increased by over \$70, which assured the committee that they will be able to make prizes for the children on the same scale as used last year.

GODFREY BAKER, Treasurer.

money will patronize thee.

III. Thou shalt employ thy home mechanics that they shall not be driven from their home to find bread for their little ones.

IV. Thou shalt not ask for credit, as goods cost much and the merchant's brain is burdened with bile. His children clamor for daily bread, and his wife abideth at home for lack of garment as adorneth her sister. Blessed, ye, thrice blessed is the man who pays cash.

V. Thou shalt not ask for reduced price on thine "influence," for guilt is in your heart, and the merchant reacheth it like an open book. He laugheth thee to scorn and shouteth to his clerks, ha, ha!

VI. Thou shalt do whatever lieth in thy power to encourage and promote the welfare of thine own neighborhood and thine own people.

VII. Thou shalt not suffer voice of pride to overcome thee and if foreign merchants entice thee, consent thou not, for thou mayest be deceived.

VIII. Thou shalt spend thy earnings at home that they may return from whence it came and give nourishment to such as may come after thee.

IX. Thou shalt not bear false witness against the town wherein thou dwellest but speak well of it to all men.

X. Thou shalt keep these commandments and teach them to thy children even unto the third and fourth generations that they be made to flourish and grow in plenty when thou art laid to rest with thy fathers.—Exchange.

Grain rates on the Great Lakes dropped as low as 2½ cents a bushel, Fort William to Montreal. Lake transportation companies are waging a rate war.

Neighborhood News

HILLSIDE

The sports ground committee have been busy getting the new community ground in shape for the picnic on Saturday.

Messrs. Ambrose, Ivan Swartz, W. Rine and J. Hoskins were visitors to Edmonton last week and attended the junior conference at the University of Alberta.

The Soldier Settlers' Union held their first 400 party at the home of Mr. and Mrs. Frank Loader last Friday evening. The first prizes were won by Mrs. Martin and Mr. E. R. Hoskins and the consolation by Mrs. Hoskins and Chas. Robinson. The members of the Union wish to thank Mr. and Mrs. Lath for the splendid prizes donated by them.

For the last two weeks Advent meetings have been held in the school house. There has been a large attendance at all meetings and great interest shown. These meetings will continue till the last of June.

All roads lead to the school house on Saturday the 24th, when the U.P.A. picnic will be held. There will be sports for old and young with a dance in the evening.

PIGEON VALLEY

The Fletcher school football team played a very interesting game with the Mount Red school children on Friday last. The Pigeon Valley was in favor of Mount Red.

Mrs. A. Sharpe's mother, Mrs. Lomas of Calgary, is visiting at the home of her daughter.

Miss N. Timofeev and the Falun school football players motored down to Pigeon Valley for a practice game last week. Everything was played fair and square, which made the game enjoyed by all present. But luck was with Falun once more and the score was 21 to 15.

Frank Sheppard left for the motor trip to points in Saskatchewan. We wish him a pleasant holiday.

On Sunday the Pigeon Valley girls played a football game against Mount Red. The players were very evenly matched throughout and the umpire favored no one. This added greatly to the enjoyment of the game. Nine innings were played and Pigeon Valley came out on top.

Sunday evening the Valley boys held a meeting at the home of Mr. F. Stone, at which they re-organized their baseball and football teams, besides electing new managers and captains. We hope everything runs smoothly now. The girls played football, and later everyone enjoyed ice-cream and cake.

Breaking is in full swing in the Valley. The crops and gardens are looking good yet, but are badly in need of rain.

Several of the young people of this district attended the old time dance at the Elite hall last Wednesday. They thought the music splendid, and all reported a good time.

Art Westermoreland is home again, after working on the farm of H. O. Ray since last fall.

Mr. and Mrs. Sager and family are new residents in the Pigeon Valley district.

FALUN

Tuesday evening of last week the football team motored to Ponoka to play a football game with the Ponoka United team. The score ended 4-3 in favor of Falun. On Thursday the boys

were to play Comrose on the Falun Community field, but Comrose was unable to come so no game was played.

Last Wednesday afternoon a number of friends of Ellen Edlin called to help celebrate her birthday and pleasantly surprised her. A dainty lunch was served after a game of ball which was very much enjoyed. They all left with best wishes to Ellen.

Mr. and Mrs. A. Hagen of Edmonton, spent the week-end at the Edlin home.

Sunday afternoon a large turnout from Pleasant Prairie came to the Falun sports ground where a baseball game between the Pleasant Prairie and Falun boys was held and also a softball game between the girls and the Live Wires. The Live Wires played a very good game and held the Pleasant Prairie girls well in hand. The score was 20-2 in favor of the Live Wires. The baseball teams played a very nice game throughout, with the score ending 13-6 in favor of Pleasant Prairie. Forbes Atkinson was umpire for both games.

Miss Myrtle Ower of Strathcona is spending several days at Falun, the guest of Miss N. Timofeev.

BITTERN LAKE

Mr. and Mrs. A. Howarth and children of Edmonton, who have been spending a couple of weeks visiting with Mrs. E. B. Reimer, returned to their home last Sunday.

BORN—To Mr. and Mrs. Harold Howarth on June 18th, a daughter, in St. Mary's Hospital, Camrose. (Barbara Gwen).

A. L. Peterson is drilling a well for Mr. Larson, north of Wynne.

E. W. Leavitt played by a truckload of hogs to Wetaskiwin Monday.

Wm. Popovich left for Mayerthorpe on Sunday, where he will visit his mother, also located in Mayerthorpe.

Miss Jessie Richmond of New Norway, visited over Sunday with her folks here.

S. Devall is out at Winfield visiting his son Tom and family.

Harris Gouche, who has been working for E. W. Alm since last fall, is home, taking it easy for a while.

NAVARRE

Nearly all the farmers are through spring work in the fields, but a few are still sowing green feed.

The school children are busy writing their final exams.

The death of Mrs. L. O. Pelland, who has been a highly esteemed resident here for many years.

Roland Wagner of Strathcona, is visiting at our district a few days ago.

P. Ochs has been engaged to plow fields around the school building and fill in another field.

The Bully's district is pleased to learn that our teacher, C. D. Williamson, has consented to continue as teacher for another year.

Mr. and Mrs. Andrew Gens are being congratulated on the arrival of a baby daughter.

Roland Wagner of Wetaskiwin, is spending his holidays at the home of his sister, Mrs. C. B. Nelson.

Miss Martha Kasur who has been spending some time at Bittern Lake with her sister, Mrs. Ed. Walters, returned home Monday.

Mr. and Mrs. J. S. Rhodes and family were in Edmonton on Saturday guests of their daughter, Mrs. L. L. Bergen.

Mr. and Mrs. T. R. Wager and family of Wetaskiwin and Mr. Stollery of Edmonton, were Sunday visitors at the C. C. Nelson home.

J. McLean, who has been visiting at the Pettison home, left for Meeting Creek on Sunday.

Miss Lydia Dewald is spending some time at her father's farm west of Hobson.

The many friends of Henry Kasur, who were present at the funeral of his son, are all well.

The new Catholic church was dedicated Sunday last with impressive ceremony. At ten o'clock the Bishop of Saint Albert was received at the north of the church by Rev. Fr. Walcott, and solemnly introduced to him. Clad in his pontifical vestments and miter and golden staff, he followed the procession outside the church. The prayers were said and ceremonial blessings all entered the temple and there the inside blessing was given. Rev. Fr. A. Davidson of Strathcona, officiated at the celebration of High Mass, assisted by Rev. Fr. Dauphion of Hobbema as deacon and Rev. Fr. Tröck of Davidson sub-deacon. His Lordship occupied the throne erected for him, and was assisted by Rev. Fr. Voisin of Red Deer.

A terrible accident happened Wednesday when Hugh W. Brodie, electrician, was electrocuted.

P. W. McWhirter of Bawlf, has accepted a situation with the Revelstoke Sawmill Co.

Greatly to the disappointment of the citizens, the operations at the old gas well had to be abandoned owing to an obstruction at the bottom of the hole. They will at once commence the drilling of a new one.

Apparently for political reasons, D. A. Ward was requested to resign as Dominion Lands Agent, and Fred P. Spencer has been appointed to the office.

Edmonton County Royal Sheriff Chas. of the L.O.L. came to Wetaskiwin and called on B. Campbell, Thos. Spencer and F. J. B. Morris to the Royal Sheriff's Degree.

The Cinderella Club gave a farewell party to Mr. J. C. Wager.

W. B. Fullerton brought into the office a sample of rye from Battle Lake which measured over five and one-half feet in length.

who underwent an operation in the Community Hospital on Saturday, are pleased to learn he is convalescing nicely.

Mrs. J. Shantz had the misfortune to break a bone in her foot a few days ago.

Mr. and Mrs. H. M. Korstad and family of Meeting Creek, spent Sunday at the home of Mrs. Nelson.

Miss Susie Ochs is assisting at the J. Shantz home.

Wm. and two little sons of Col. J. Wash, and Mr. A. W. Anderson of Wetaskiwin, were guests at the C. C. Nelson home on Tuesday.

The Ladies League had an enjoyable meeting at the Lundell home on Tuesday evening when they had a large attendance. Mr. and Mrs. Wm. Foreman, Anaconda, Mont., and Rev. Franzén of Edmonton, were guests of the league.

Mrs. T. C. Malmas, Miss Anna Malmas and Mrs. Malmas, sr., left on Monday on a motor trip to Winnipeg, where they will visit for a few weeks.

Miss Elsie Elger of Bittern Lake, is assisting at the home of Mr. Malmas, sr.

HAULTAIN

A pretty surprise shower was held in honor of Miss Marguerite Elker, popular bride-to-be, on Thursday afternoon, June 15th, at the home of Mrs. E. B. Reimer.

The living-room was prettily decorated in a pink and white color scheme. After the guests had all arrived a humorous mock wedding was staged. To the tune of "Solomon Levi" played by Miss H. Johnson, the bride and groom entered the living room. Those taking part were: Bride, Miss A. Dahlberg; groom, Miss N. Reimer; bridesmaids, Mrs. G. Thirsk; ring-bearer, Wilfred Holmer, and flower girl, little Miss Vera Reimer.

Master Wilfred Holmer gave a very appropriate recitation. On behalf of those present, Mrs. Axel Holmer wished the guest of honor a very happy wedded life, with much sunshine, and the dark and cloudy days few and far between.

A pink and white basketette loaded with gifts was then carried into the room by Master Tommy and little Miss Pauline Watson and presented to the bride-to-be. Miss Marguerite Elker, in a most graceful manner, thanked her many friends present. The large number of beautiful and useful gifts showed the bride-to-be is held.

At the close of the program several of the young ladies sang "Believe me if all your thinking young charms." A delicious lunch was then served, followed by ice cream, and a pleasant hour was spent.

As Miss Elkermann has always been an active member of the younger set of the district, always cheerfully lending a helping hand, the sincerest and best wishes of all her friends go with her in this new venture in life.

MILLET

The senior girls of the White United Sunday school met Tuesday the 13th, for their last meeting of the season. The first part of the evening was spent in an enjoyable game of football. After the game they all returned to the church where games were played and refreshments served.

They ended the meeting with a circle and singing "For he's a jolly good fellow," and "Auld Lang Syne," for those leaving through the summer holidays. All report a very enjoyable time.

MILLET W.I. CELEBRATE 20TH ANNIVERSARY

The June meeting marked the twentieth anniversary of the founding of the Mother's Club of West Liberty. Since this was the club from which the Millet Institute grew, a picnic was held to mark the occasion. The original members of the club, ex-members of the Institute, mothers and husbands, were invited. About eight of the original members were able to be present.

At one o'clock about forty sat down to a bounteous picnic lunch spread under the trees at the home of Mrs. T. Hoves.

Following lunch the members and the visiting ladies held their meeting. "A Canadian Product I Use" answered the roll call. After the business period Mrs. Hoves gave a very interesting paper on "Buy Made-in-Alberta Goods."

She stressed the importance of buying Alberta made goods and thus keeping our money at home to help the unemployment situation here. She cited examples of Made-in-Alberta goods, including sugar, soap, candy, many kinds of food, clothing, pottery, etc.

Mrs. Phillips, on behalf of the Institute, presented their report on the progress of the Institute in former days and a jolly time was spent in discussing these.

Before the meeting adjourned it was decided to hold the next meeting July 12th at the West Liberty school, since many of the members will be there at the Dairy Club picnic. It will begin at the usual hour, 2:30, and will be quite brief. However, we hope all the members will make an effort to be present as matters referred to in the coming conference will be settled.

Ice cream, cake and lemonade was served and some snapshots taken. In it was a great day. Even the weather man showed his approval with the warmest June day.

Trade with the merchants who do as service in this paper.

COMMUNICATION

[We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.]

To the Editor of The Times.

Dear Sir:

On the eve of our departure from Millet we wish publicly to express, through your columns, our appreciation of the wisdom and care of the School Board in the execution of its duties. We cannot speak too highly of the moral quality and general efficiency of the teaching staff of this school during the last three years. We think it would be hard to find a better managed school. We have had seven children in attendance and at least one student in each room, so have been, as no other family in the community, in touch with the whole school life. We wish also to mention the genial and painstaking janitor, who has added not a little to the discipline and general tone of school life. We believe in years to come, our children will look back upon their 10 years of school life in Millet, with the childhood companionships and under the influence of such a staff, as one of the most wholesome and happy periods of life's journey.

Yours sincerely,

Reed and Mrs. H. G. SMITH, United Church Parsonage, Millet.

The Editor, Wetaskiwin Times.

OPEN LETTER TO THE WETASKIWIN SCHOOL BOARD

Your board is becoming about as popular as ex-President Hoover. R. B. Bennett and Hector Charlesworth, of the Radio Commission. Your board's action in appointing, immediately, to a vacant position on the Public School Staff, and without the usual formality of inviting applications through advertisement, a relative of one of your own sitting members looks very much like a breach of public confidence.

In fairness to the children of the city your board should spare no effort to engage the most competent and experienced teachers. The best are available owing to the preference of teachers for positions in city schools. The granting of a teacher's certificate is not evidence of teaching ability. This has to be developed through experience in actual teaching. Whether or not such ability is actually developed in a high degree depends upon the individual temperament, personality, as well as the degree of interest in, and a peculiar genius for, teaching.

Unless these qualities have been developed and demonstrated in applicants for city schools their applications should not be further considered.

A first class certificate given a teacher may mean no more than evidence of a good memory. It is no guarantee that the subjects studied are well understood. Nor is it the least guide as to the temperamental suitability for the profession chosen.

This inherent weakness in our educational system imposes upon your board the responsibility of most careful selection.

The next step after the plant breeder has identified a plant reasonably

well adapted to the conditions of the soil and climate is to multiply it. The mathematical probabilities are that out of such a cross you have one chance in a million of identifying one of the progeny that will be earlier and of high milling and baking value—then the plant breeder is lucky indeed if he can produce such progeny and if he can recognize it after he has produced it. Hundreds of thousands of crosses have been made that have produced nothing worth while.

The next step after the plant breeder has identified a plant reasonably

well adapted to the conditions of the soil and climate is to multiply it. The mathematical probabilities are that out of such a cross you have one chance in a million of identifying one of the progeny that will be earlier and of high milling and baking value—then the plant breeder is lucky indeed if he can produce such progeny and if he can recognize it after he has produced it. Hundreds of thousands of crosses have been made that have produced nothing worth while.

HOW ELITE SEED IS PRODUCED

The following is the statement of Major Strange of the Seale Grain Co., telling how Elite seed is produced.

The professional plant breeder at a University or Dominion Experimental Farm as a rule has had in his mind the conception of a new superior variety for the next three years, and is designed to be of high milling and baking value and to be a few days earlier than Red Pile which was caught by the frost in most years.

Wheat was designed to have the same milling and baking value as Marquis, yet to be in turn a few days earlier than Marquis even.

With this ideal in mind the plant breeder will make thousands and thousands of crosses between different varieties. Perhaps the variety used as the male will be very early but of poor milling value. Perhaps the variety used as the female may be of high milling value but very late.

The mathematical probabilities are that out of such a cross you have one chance in a million of identifying one of the progeny that will be earlier and of high milling and baking value—then the plant breeder is lucky indeed if he can produce such progeny and if he can recognize it after he has produced it. Hundreds of thousands of crosses have been made that have produced nothing worth while.

The next step after the plant breeder has identified a plant reasonably

CANADIAN TRADE

The Canada-France trade treaty went into effect on June 10, to continue to May 12 of next year—Wheat exports from the first of August to the first of June were 107,534,036 bushels, an increase of 57,000,000 over the same period of the preceding year—For nine consecutive weeks an up-grade was maintained in Canadian stock and mining exchanges.

The Times does commercial printing at right prices.

Town Topics

Mr. and Mrs. O. C. Shantz motored over from Vancouver to visit at the home of her brother, B. C. McCrene.

The foundation has been completed for a handsome residence which is being erected overlooking the park by Dr. J. C. Shillabeer.

Miss Marion Lundell, who has been visiting her sister, Mrs. Swensen at Lake Park, Minn., for the past year, returned home a few days ago.

Ed. N. Peterson and mother arrived a few days ago from Sandpoint, Idaho, to visit the former's sister, Mrs. J. B. Haukedal and old friends for several weeks.

The Odd Fellows and Rebekahs held a Memorial Day on Sunday afternoon last when the graves of over thirty members were visited and marked with links.

Mrs. W. J. Gable underwent a very serious operation in the Community hospital a few days ago. Her many friends are glad to know she is improving as well as could be expected.

Miss Helen Johnston, Mrs. Fred Sutherland and daughters Lois, Marion and Helen were visitors at the home of the former's parents, Mr. and Mrs. E. B. Johnston, north of Wetaskiwin last week.

The final meeting of the Wetaskiwin Business Girls Club was held at the home of Mrs. E. Edwards with Miss Connie Schaff as hostess. Reports of the different committees were given for the year and it was found that the club had had a very successful year both socially and financially. Although the membership was smaller than last year the girls all turned out to the meetings and took more interest in the club. It was decided to reopen the 1st of September. After the business, bridge was played, honors going to Mrs. E. Edwards and Miss Schaff.

WETASKIWIN MEMBER TO HOLD PUBLIC MEETINGS

Hugh J. Montgomery, M.L.A., has arranged to address meetings at the following places:

Lone Ridge Hall—Wednesday, June 21st.

John Hill's residence, Twin Creek—Friday, June 22nd.

Brightview School—Monday, June 26th.

Pleasant Prairie School—Thursday, June 29th.

The meetings will be held at 8:30 p.m.

The principal subject for discussion will be the proposed sale of the Government respecting rural telephones. It would appear that unless some action is promptly taken by those interested to save the rural telephone system and at the same time establish a reasonable monthly rate that all can afford to pay, this important public utility, as it affects our farming population, will soon be a thing of the past.

Similar meetings will be held at other points throughout the Constituency of which due notice will be given.

Other matters of interest, including the proceedings of the recent Session of the Legislature, will also be discussed.

THE TEN MODERN COMMANDMENTS

The following are Ten Modern Commandments which every citizen should adopt. Read them carefully and see if you measure up as well as you do to the Moslem version.

I. Thou shalt not go away from home to do thy trading, nor thy son, nor thy daughter.

II. Thou shalt patronize thy home merchants, for yea, verily, doth the home worked spread over the tiding of the goodness and greatness, and many will patronize thee.

III. Thou shalt employ thy home mechanics that they shall not be driven from their home to find bread for their little ones.

IV. Thou shalt not ask for credit, as goods cost much and the merchant's brain is burdened with life. His children clamor for daily bread, and his wife abideth at home for lack of garment as adornment her sister. Blessed, yea, thrice blessed is the man who pays cash.

V. Thou shalt not ask for reduced price on things "influence," for guilt is in your heart, and the merchant reatheth it like an open book. He laugheth thee to scorn and shouteth to his clerks, ha, ha!

VI. Thou shalt do whatever lieth in thy power to encourage and promote the welfare of thine own neighborhood and thine own people.

VII. Thou shalt not suffer voice of pride to overcome thee and for foreign merchants entice thee, consent thou not, for thou mayest be deceived.

VIII. Thou shalt spend thy earnings at home that they may return from whence it came and give nourishment to such as may come after thee.

IX. Thou shalt not bear false witness against the town wherein thou dwelleth but speak well of it to all men.

X. Thou shalt keep these commandments and teach them to thy children even unto the third and fourth generations that they be made to flourish and grow in plenty when thou art laid to rest with thy fathers.—Exchange.

Grain rates on the Great Lakes dropped as low as 2½ cents a bushel. Fort William to Montreal. Lake transportation companies are waging a rate war.

The committee wish to thank all those who assisted at Angus Ridge hall in the concert and dance for the benefit of the Fair. By their effort the funds were increased by over \$70, which assured the committee that they will be able to make prizes for the children on the same scale as used last year.

GODFREY BAKER, Treasurer.

SPORT

WETASKIWIN-DAYSLAND
TIE FOR SECOND PLACE

The local baseball team was edged out 4 to 3 at Daysland on Tuesday in a real snappy game at Daysland in the league schedule, the winners tallying three runs in the opening game. Farewell hurled a highly creditable brand of ball and Harney, a new-comer from Edmonton, worked nicely in Tuesday's game. With the league drawing to a close preparations are under way to bring a number of Edmonton senior league teams here, and the locals will also shortly be busily engaged in the provincial play-offs. Friday nights are baseball nights each week at the ball yards and this Friday's encounter will be a mortar.

ATHLETICS GIVE BAWFL BAD BEATING

Jimmy Rattlesnake turned in a nice game for the Athletics on the home diamond on Friday night in a scheduled game in the Central Alberta Baseball League, striking out twelve of Bawfl's heavy hitters, and walked only one. Mosand, who commenced the mound work for the visitors, was hit freely the two innings he pitched, Wetaskiwin scoring one in the first and six in the second, when he was replaced by Bowen, who was hit freely and retired only two by the fan route. Cleland got a three-bagger and two base hits are credited to Lewis 3, Rattlesnake, Lundell and Farewell. At the end of the eighth, when the game was called, the score was Bawfl 4, Wetaskiwin 16.

The line-up:

Bawfl—Molstead cf; Olstad c; McGee 2b; Kirkpatrick rf; Bowen ss and p; Gillespie 3b; Aldridge lb and rf; Scherz rf and lb; Mosand p and ss.

Wetaskiwin—Cleland 2b; Lewis cf; Rattlesnake cf; Nelson rf; Kronfeld ss; Thirk 3b; Lundell c; E. Rotvik lf; G. Rotvik lf; Farewell lb.

A new presbytery of the Canadian Presbyterian church in the Peace River district was approved at the meeting of the general assembly in Peterboro, Ont.

Town Topics

Mrs. W. J. Mark of Elmvalle, Ont., arrived a few days ago to visit at the home of her brother, B. C. McCrene.

A dance will be held in the Angus Ridge hall on Friday evening, June 23rd. Mac's Orchestra, Genia 50c, ladies 25c, including supper.

Mrs. B. W. Outlets of Mulhurst, who has been a patient in the Community hospital for several weeks, left for her home Wednesday morning.

The friends of Mrs. V. C. French will be pleased to learn that she is recovering nicely from a major operation which took place in the Community hospital on Friday morning last.

Bert Wallis and Ted Reynolds were at Edmonton a few days ago trying medical examinations for commercial flying licenses. They are hopeful that they passed with honors but will not know for some time, as the results are announced from Ottawa.

Rev. C. Thies of Edmonton, occupied the pulpit at Dickson Ave. Lutheran Church on Sunday evening. Rev. Thies was the main speaker at Waldheim Lutheran church on Sunday morning and afternoon on the occasion of the annual mission festival.

The many friends here were sorry to learn last week that Mrs. E. H. L. Thomas, a former resident of Wetaskiwin for several years, passed away in the hospital at Wainwright on June 10th. She leaves to mourn her loss, her husband and six children: Herman of Warner, Alta.; Charles of Wetaskiwin, Alta.; Robert of Vegreville, Alta.; and Jane, Glenn and Eleanor of Wainwright.

Capt. Campbell of the Salvation Army, who has been here for about sixteen months, expects to leave Wednesday for Hanna where she will take charge of the Army work. Lieut. Howlett is being transferred to Innisfail. The new officers here will be Capt. M. Anderson, who comes from Hanna, and Lieut. Harris who has been at Vermilion for sometime. Welcome meetings for the new officers will be held July 2nd.

A party consisting of Agnes R. Normand, Lillian Traynor, Messrs. Herbert Larmour, Luigi Biamonte and Bert Peters, motored from Edmonton on Sunday last to celebrate the former's birthday at the home of her sister, Mrs. M. Dayton and family of Wetaskiwin. Among the other out-of-town guests were Mr. and Mrs. W. D. Bobo and son Billie, Evert Normand and Rex Gotschel of Usona. The day was spent in games and music. An enjoyable time was had by all present.

SHORTHORN FIELD DAY AT LACOMBE, MONDAY, JULY 17

The Dominion Experimental Station at Lacombe is centrally located in the Province. The large grounds provide excellent facilities for the holding of "Field Days" and with a very wide range of experiments under way, covering live stock, poultry, bees, horticulture and field crops, there are always many object lessons to interest and benefit farmers. During the summer a number of field days will be held at the Experimental Station, but one of the most interesting should be the Shorthorn

Breeders' Day on Monday, July 17th. This field day will be held under the auspices of the Alberta Shorthorn Breeders' Association, and they have been fortunate in having the Hon. Robert Weir, Minister of Agriculture, and Dr. Barton, newly appointed Deputy Minister of Agriculture for Canada, present on this occasion. Mr. Newman, Dominion Cerealist, and Mr. Muir, Dominion Animal Husbandman, will be with the Minister.

When you need printing in a hurry, When it simply must come through, When the job is mighty particular—Let The Times do it for you!

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious.

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for its past 88 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief.

Get it at your drug or general store; put up only by The T. Millburn Co., Limited, Toronto, Ont.

The final meeting of the Wetaskiwin Business Girls Club was held at the home of Mrs. E. Edwards with Miss Connie Schmitt as hostess. Reports of the different committees were given for the year and it was found to be a very successful one. The club year both socially and financially. Although the membership was smaller than last year the girls all turned out to the meeting and to the surprise of the club, it was decided to re-open the 1st of September. After the business, bridge was played, honors were won by Mrs. Edwards and Miss Schmitt.

Calf market was decidedly slow not having recovered from last week's heavy deliveries. Good to choice light calves were hard to sell from \$3.00 to \$3.50; while plain, quality was practically unsaleable and had to be disposed of from \$2.00 to \$2.50.

The hog market was firmer and 10c to 15¢ higher today (Tuesday), and trucked in hogs selling at \$4.75. Selects bringing 50¢ per cwt. premium and butchers being discounted 50¢ per cwt. Cuts on off grade hogs remain the same and are as follows: Heavies discounted \$1.25 per cwt., extra heavies \$1.75 per cwt.; No. 1 sows \$2.00; No. 2 sows \$2.50; sows \$3.00; stages optional; stags with tusks no value.

Sheep and lamb market was decidedly slow and dull with common fat sheep and lambs not being wanted at any price. Values were weaker and from 50¢ to \$1.00 below last week's close. Only the very best of spring lambs are eligible to make \$5.50 with the bulk of good lambs bringing around \$5.00; good yearlings are selling from \$3.00 to \$3.50 and plain kinds from \$2.00 to \$2.50 while ewes are clearing from \$1.00 to \$2.00.

WEEKLY STOCK MARKET REPORT

The following is a report of the Edmonton Stock Yards as supplied to The Times for the week ending June 20th:

Receipts: Cattle 462; Calves, 228; Hogs 1048; Sheep 156.

Receipts so far this week have been on the moderate order and a fair sprinkling of grass cattle were in evidence among the offerings. Trading on dry fed cattle was a little more active under better demand during the past two days with prices being steady to firm. Grass offerings, however, were very drab and particularly hard to move, bulk of clearings being made to stocker and feeder buyers who would only accept these at a low price. Good cows were scarce and showed little change from the previous week. The following are the ruling prices:

Good to choice fed calves \$4.00 to \$4.50; medium \$3.25 to \$3.75; good to choice butcher steers \$3.75 to \$4.25. Good to choice fat 10c to \$1.50; medium \$3.00 to \$3.50; and common \$2.00 to \$2.50; good to choice butchers \$3.50 to \$4.00; medium \$2.75 to \$3.25; common \$2.00 to \$2.50; good to choice butchers cows \$2.25 to \$2.75; common to medium \$1.25 to \$2.00; canners and cutters \$1.00 to \$1.50; bulls \$1.00 to \$1.50.

Good stocker cattle were in demand and sold at steady values ranging from \$2.50 to \$3.00; but plain stockers were not wanted and had to be moved at prices ranging from \$1.50 to \$2.00. Stocker cows sold from \$1.25 to \$1.75.

Calf market was decidedly slow not having recovered from last week's heavy deliveries. Good to choice light calves were hard to sell from \$3.00 to \$3.50; while plain, quality was practically unsaleable and had to be disposed of from \$2.00 to \$2.50.

The hog market was firmer and 10c to 15¢ higher today (Tuesday), and trucked in hogs selling at \$4.75. Selects bringing 50¢ per cwt. premium and butchers being discounted 50¢ per cwt. Cuts on off grade hogs remain the same and are as follows: Heavies discounted \$1.25 per cwt., extra heavies \$1.75 per cwt.; No. 1 sows \$2.00; No. 2 sows \$2.50; sows \$3.00; stages optional; stags with tusks no value.

Sheep and lamb market was decidedly slow and dull with common fat sheep and lambs not being wanted at any price. Values were weaker and from 50¢ to \$1.00 below last week's close. Only the very best of spring lambs are eligible to make \$5.50 with the bulk of good lambs bringing around \$5.00; good yearlings are selling from \$3.00 to \$3.50 and plain kinds from \$2.00 to \$2.50 while ewes are clearing from \$1.00 to \$2.00.

LIBRARY NOTES

A consignment of new books has just reached the Wetaskiwin library, among them the following:
"Royal Flush," by Margaret Irwin. An historical novel in the time of Louis XIV, with, for background, real characters as a background. An interesting well written book for the better reader.

"Desert Sand," by Margaret Pedlar. In England and Egypt the charming Toni experiences a host of adventures—to become an heiress—to be pursued with ruthless results by the wrong man—and finally by a sequence of exciting events, to retrieve her love and happiness beneath the splendid Eastern skies.

Members are notified that the library will be closed during July and August unless arrangements can be made for opening during the hours of two to five o'clock on each Saturday afternoon during these months. All who wish this arrangement should notify the Librarian in the Library.

WETASKIWIN SCHOOL FAIR

The committee wish to thank all those who assisted at Angus Ridge hall in the concert and dance for the benefit of the Fair. By their effort the funds were increased by over \$70, which assured the committee that they will be able to make prizes for the children on the same scale as used last year.

GODFREY BAKER, Treasurer.

SPORT

WETASKIWIN-DAYSLAND
TIE FOR SECOND PLACE

The local baseball team was edged out 4 to 3 at Daysland on Tuesday in a real snappy game at Daysland in the league schedule, the winners tallying three runs in the opening game. Farwell hurled a highly creditable brand of ball and Harney, a new-comer from Edmonton, worked nicely on the receiving end. Daysland and Wetaskiwin are now tied for second place in the league, and the game here on Friday evening should be a thriller. Daysland has a snappy aggregation of ball tossers gathered from various points on the east line, Speers and McKillan being the winning battery in Tuesday's game. With the league drawing to a close, preparations are under way to bring a number of Edmonton senior league teams here, and the locals will also shortly be busily engaged in the provincial play-offs. Friday nights are baseball nights each week at the ball yards and this Friday's encounter will be a mortar.

ATHLETICS GIVE BAWLF BAD BEATING

Jimmy Rattlesnake turned in a nice game for the Athletics on the home diamond on Friday night in a scheduled game in the Central Alberta Baseball League, striking out twelve of Bawlf's heavy hitters, and walked only one. Mosand, who commenced the mound work for the visitors, was hit freely the two innings he pitched, Wetaskiwin scoring one in the first and six in the second, when he was replaced by Bowen, who was hit freely and retired only two by the fan route. Cleland got a three-bagger and two base hits are credited to Lewis, Rattlesnake, Lundell and Farwell. At the end of the eighth, when the game was called, the score was Bawlf 4, Wetaskiwin 15.

The line-up:
Bawlf—Molstead cf; Olstad c; McGee 2b; Kirkpatrick 1b; Bowen ss and p; Gillespie 3b; Ayridge lb and rf; Soberg rf and lb; Mosand p and ss.
Wetaskiwin—Cleland 2b; Lewis cf; Rattlesnake p; Nelson rf; Kronfeld ss; Thirk 3b; Lundell c; E. Rotvik lf; G. Rotvik lf; Farwell lb.

A new presbytery of the Canadian Presbyterian church in the Peace River district was approved at the meeting of the general assembly in Peterboro, Ont.

Town Topics

Mrs. W. J. Mark of Elmavale, Ont., arrived a few days ago to visit at the home of her brother, B. C. McCrae.

***A dance will be held in the Angus Ridge hall on Friday evening, June 23rd, at 8 o'clock. Gents 50¢, ladies 25¢, including supper.

Mrs. B. W. Outmetts of Mulhurst, who has been a patient in the Community hospital for several weeks, left for her home Wednesday morning.

The friends of Mrs. V. C. French will be pleased to learn that she is recovering nicely from a major operation which took place in the Community hospital on Friday morning last.

Bert Wallis and Ted Reynolds were at Edmonton a few days ago trying medical examinations for commercial driving licenses. They are hopeful that they passed with honors but will not know for some time, as the results are announced from Ottawa.

Rev. C. Thies of Edmonton, occupied the pulpit at Dickson Ave. Lutheran Church on Sunday evening. Rev. Thies was the main speaker at Waldheim Lutheran church on Sunday morning and afternoon on the occasion of the annual mission festival.

The many friends here were sorry to learn last week that Mrs. E. H. L. Thomas, a former resident of Wetaskiwin for several years, passed away in the hospital at Wainwright on June 10th. She leaves to mourn her loss, her husband and six children: Herman of Warner, Alta.; Charles of Wetaskiwin, Alta.; Robert of Vegreville, Alta.; and Jane, Glenn and Eleanor of Wainwright.

Capt. Campbell of the Salvation Army, who has been here for about sixteen months, expects to leave Wednesday for Hanna where she will take charge of the Army work. Lieut. Howlett is being transferred to Innisfail. The new officers here will be Capt. M. Anderson, who comes from Hanna, and Lieut. Harris who has been at Vermilion for sometime. Welcome meetings for the new officers will be held July 2nd.

A party consisting of Agnes R. Normand, Lillian Traynor, Messrs. Herbert Larmour, Luigi Bionante and Bert Peters, motored from Edmonton on Sunday last to celebrate the former's birthday at the home of her sister, Mrs. M. Dayton and family of Wetaskiwin. Among the other out-of-town guests were Mr. and Mrs. W. D. Bobo and son Billie, Evert Normand and Rex Getschel of Usona. The day was spent in games and music. An enjoyable time was had by all present.

SHORTHORN FIELD DAY AT LACOMBE, MONDAY, JULY 17

The Dominion Experimental Station at Lacombe is centrally located in the Province. The large grounds provide excellent facilities for the holding of "Field Days" and with a very wide range of experiments underway, covering live stock, poultry, bees, horticulture and field crops, there are always many object lessons to interest and benefit farmers. During the summer a number of field days will be held at the Experimental Station, but one of the most interesting should be the Shorthorn

Breeder's Day on Monday, July 17th. This field day will be held under the auspices of the Alberta Shorthorn Breeders' Association, and they have been fortunate in having the Hon. Robert Weir, Minister of Agriculture, and Dr. Barton, newly appointed Deputy Minister of Agriculture for Canada, present on this occasion. Mr. Newman, Dominion Cerealist, and Mr. Muir, Dominion Animal Husbandman, will be with the Minister. When you need printing in a hurry, When it simply must come through, When the job is mighty particular—Let The Times do it for you!

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, common complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious. To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 88 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief. Get it at your drug or grocery store; put up only by The T. Milburn Co., Limited, Toronto, Ont.

The People Must Pay

Few, if any, subjects are engaging the attention of people in Canada, as in most countries, as closely as the subject of taxation. The rising burden of taxes is a matter of deep concern to all. Fortunately, it is receiving serious consideration, not only by those responsible for the administration of public affairs, but by individual citizens.

Taxation in our modern democracies is by no means a simple problem; it is cumulative in effect, and its control is extremely difficult. Every governing and administrative body set up imposes a measure of taxation upon all of us, and, in addition, there are many calls made upon people which, while voluntary in one sense, constitute, in the final analysis, a form of taxation.

First, we have Federal taxation, direct and indirect, and levied in a great variety of ways through such agencies as the tariff, excise duties and taxes, sales taxes, income taxes, stamp taxes of various kinds, license fees. Provincial Legislatures follow with a second income tax, land taxes, amusement taxes, license fees to be paid for this, that and the other almost without number. Then the municipalities place another tax on lands, on improvements thereon, some levy a third income tax, some an additional amusement tax, all of them have more license fees to charge. The school boards impose further tax to meet the costs of education.

Hospitals have to be provided for, to some extent this is done through taxation, provincial and municipal, but often this form of taxation has to be supplemented by voluntary contributions but which in reality, are a tax on business and incomes. Churches have to be maintained, even though

the law may not compel us to do so, and thus people are in effect again taxed if they are willing to be, and most of them are. Philanthropic and charitable organizations and services of all kinds are maintained in the same way.

The cumulative effect is to produce an almost impossible burden, until now we find articles appearing in magazines, financial journals, the daily and weekly newspapers recording the hundreds of millions that have been created, and raised in taxation, while thousands of all kinds are investigations and studies as to arriving at some means by which the burden can be lessened further increase of it.

Prevention of any increase is an easy matter for people, who are the sufferers here shall be no further individuals know they within their incomes, or headed for trouble and disaster. Business knows it is moderate itself to its income and in bankruptcy. What is true in their case is likewise true in public. Many people, possibly of them, who are fully they must live within what have nevertheless acted that it was not necessary governing bodies created and supported by them, some course. Rather, he stated that their government, Provincial, Municipal and the latter have n

what their creators demanded they should do. But these same governments have no income except the power to tax people, and this they have proceeded to do.

What people must realize is that if they demand of their governments certain services they must be prepared to pay for those services. They cannot have them otherwise. And if they cannot afford to pay for them, then there is only one thing they can do, and must be prepared to do, and that is go without them. That is, in their collective capacity they must govern themselves by exactly the same rules as they are forced to recognize and obey as individuals—if they cannot pay they must be prepared to do without what they would like to have and would have if they could afford it.

It is being predicted that the worst of the depression of the last three or four years is over; that things are once again on the up-grade; that better times are slowly but surely developing; that, in a word, the world is beginning to turn that corner around which it has been said prosperity is lurking. Let us all hope so. But when we have reached and turned that corner, and we are once again tempted to demand something of our governments we would like to have, and think they ought to supply, it will be the part of wisdom to pause and consider whether, after all, we can afford to have it, because, no matter what it may be, it will have to be paid for, and paid for by us—the

Alberta Crop Report No. 6

(Issued by the Department of Agriculture, Edmonton, Saturday, June 17th 1933.)

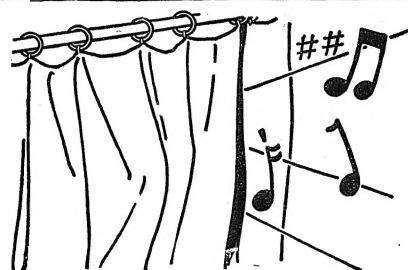

With a week or more of extremely warm weather relieved by comparatively little rain, the situation over a large section of the crop area of

conditions, but within the past week over a considerable section of the south the crops have shown some signs of suffering, and in nearly all districts of the Province at this stage rain would be welcome. Rather unfortunately, the lateness of the spring season forced a considerable amount of crop in on stubble land, and this crop is the first to show signs of suffering.

In the central and northern regions, while the weather has also been very warm, there has been some further rain, and general conditions are quite favorable, although reports indicate that further moisture will be needed if the present weather continues.

The spell of hot weather was preceded by a week of low temperature in the central and northern districts, and in a number of localities frost was recorded of from four to eight degrees, damaging chiefly garden stuff.

Grasshopper Situation
The grasshopper situation has developed rather seriously in certain parts of Southern Alberta, and the Provincial Department of Agriculture is intensifying its poisoning campaign in these areas. The campaign is well organized under the direction of the departmental officials in co-operation with the Federal Government and the University, and nearly sixty poison-mixing stations are now in operation. The most serious outbreak is in the district north and northwest of Lethbridge, and it is also fairly serious in the district extending eastward and northeastward.

The People Must Pay

Few, if any, subjects are engaging the attention of people in Canada, as in most countries, as closely as the subject of taxation. The rising burden of taxes is a matter of deep concern to all. Fortunately, it is receiving serious consideration, not only by those responsible for the administration of public affairs, but by individual citizens.

Taxation in our modern democracies is by no means a simple problem; it is cumulative in effect, and its control is extremely difficult. Every governing and administrative body set up imposes a measure of taxation upon all of us, and in addition, there are many cuts made upon people which, while voluntary in one sense, constitute, in the final analysis, a form of taxation.

First, we have Federal taxation, direct and indirect, and levied in a great variety of ways through such agencies as the tariff, excise duties and taxes, sales taxes, income taxes, stamp taxes of various kinds, license fees, Provincial Legislatures, followed with a second income tax, land taxes, amusement taxes, license fees to be paid for this, that and the other almost without number. Then the municipalities place another tax on lands, on improvements thereon, some levy a third income tax, some an additional amusement tax, all of them have more license fees to charge. The school boards impose further tax to meet the costs of education.

Hospitals have to be provided for, to some extent this is done through taxation, provincial and municipal, but often this form of taxation has to be supplemented by voluntary contributions but which in reality are that people make and un-make governments, the latter have naturally done

the law may not compel us to do so, and thus people are in effect again taxed if they are willing to be, and make it their own. Philanthropic and charitable organizations and services of all kinds are maintained in the same way.

The cumulative effect is to produce an almost impossible burden, until now we find articles appearing in magazines, financial journals, the daily and weekly newspapers recording the hundreds of millions of dollars that have been created, and the scores raised in taxation, while organizations of all kinds are conducting investigations and studies with a view to arriving at some means whereby the burden can be lessened, and any further increase of it prevented.

Prevention of any further increase is an easy matter if the people, who are the sufferers, determine there shall be further increases. Individuals know they must keep within their incomes, or they are headed for trouble and disaster. Private business knows it must accommodate itself to its income, or it will end in bankruptcy. What individuals and business must realize is that what is true in their respective cases is likewise true in public business.

Many people, possibly a majority of them, who are fully aware that they must live within their incomes, have nevertheless acted in the belief that it was not necessary for the governing bodies created by them, and supported by them, to follow the same course. Rather, people have insisted that their governments, Federal, Provincial, Municipal, should provide for them, and that the people make and un-make governments, the latter have naturally done

what their creators demanded they should do. But these same governments have no income except the power to tax people, and this they have proceeded to do.

What people must realize is that if they demand of their governments certain services they must be prepared to pay for those services. They cannot have them otherwise. And if they cannot afford to pay for them, then there is only one thing they can do, and must be prepared to do, and that is go without them. That is, in their collective capacity they must govern themselves by exactly the same rules as they are forced to recognize and obey as individuals—if they cannot pay they must be prepared to do without what they would like to have and would have if they could afford it.

It is being predicted that the worst of the depression of the last three or four years is over; that things are once again on the up-grade; that better times are slowly but surely developing. This is a very good thing, and it is a very good thing that is beginning to turn that corner around which it has been said prosperity is lurking. Let us all hope so. But when we have reached and turned that corner, and we are once again tempted to demand something of our governments, we must be prepared to pay for it. We must be prepared to be the part of wisdom to pause and consider whether, after all, we can afford to have it, or, if we cannot, what it may cost us to have it. It will have to be paid for, and paid for by us—the people—and paid through the medium of taxes in one form or another.

Many glowing promises are frequently made, and are still being made, notwithstanding the bitter experience of the past few years, of what the State can do, and ought, and will do for the people if certain principles in administration are adopted. But if these wonderful things are done, the people will pay for them in taxes. And every dollar that people have to pay in taxes is a dollar less left in their own pockets to spend in meeting their individual needs and desires and needs. Either they are going to do certain things for themselves as they desire to do them, and pay for them themselves, or they are going to have the State do these things for them, as the State may determine they should be done, and pay for them in taxes for the services so rendered.

In any event, and under all circumstances, the people will do the paying. They, too, do the ordering. They can order beyond their means, and get into trouble. They can order for themselves, according to their own needs and desires, and pay for what they order. Or they can order the State to do the ordering as the State may see fit to do, and then pay the bills incurred by the State in the decision, whatever it may be, will be the decision of each and every man acting in his or her capacity as an individual free citizen.

The main point to remember is that there is, notwithstanding the mistaken use of the word, nothing free in this world. Everything has to be paid for, and it is the people who have to foot the bills. Therefore, the day and the manner of settlement that kind of a movie is under construction at Camden, N.J. It is to be known as the drive-in-theatre, and builders claim it is the first automobile theatre in the world. The plan calls for space enough for 400 cars. There will be seven rows of inclined planes, which spectators state, will insure uninterrupted vision for motorists regardless of those coming and going. There will be a 60-foot screen, with special sound equipment. It's hard to imagine what it will sound and smell like between shows when each of the 400 cars tries to get out first or how the noisy laughter will be received. —St. Thomas Times-Journal.

DRIVE IN AND PARK

How would you like to drive your car right into the theatre, turn off the engine and just sit there and take in the latest talkie? Strange to relate, this kind of a movie is under construction at Camden, N.J. It is to be known as the drive-in-theatre, and builders claim it is the first automobile theatre in the world. The plan calls for space enough for 400 cars. There will be seven rows of inclined planes, which spectators state, will insure uninterrupted vision for motorists regardless of those coming and going. There will be a 60-foot screen, with special sound equipment. It's hard to imagine what it will sound and smell like between shows when each of the 400 cars tries to get out first or how the noisy laughter will be received. —St. Thomas Times-Journal.

Alberta Crop Report No. 6

(Issued by the Department of Agriculture, Edmonton, Saturday, June 17th 1933.)

With a week or more of extremely warm weather relieved by comparatively little rain, the situation over a large section of the crop area of the Province has reached a stage where rain will be needed shortly to prevent a set-back to the growing grain.

This applies particularly to the southern districts of the Province, where the weather has been very hot and dry for almost a fortnight, with only a trace of rain in some localities. With a good supply of moisture during the spring months, and a certain amount of reserve in the soil, the wheat crop generally has been making good progress, showing fine even stand and rapid, healthy growth, and conditions have been considered very favorable in spite of the late-ness of the spring season. The grain, especially on summer-fallow, has been standing up well under hot, dry

Here and There

Gasoline sold in Canada during 1932, according to figures compiled by the Dominion Bureau of Statistics, amounted to 69,452,000 gallons. Nearly half the total was consumed in the Province of Ontario.

The recent Canadian census reveals that of the population of Canada fifty-two per cent are of British origin; twenty-eight per cent, French origin; seventeen per cent, of other European races, and about four-fifths of one per cent, Asiatic.

The Saskatchewan Department of Natural Resources will liberate the already long week-old pheasants throughout the province of Saskatchewan during the coming summer. The birds are being held in captivity at Moose Jaw prior to liberation.

Despite a somewhat later season this year, crop conditions throughout the Prairie Provinces prove cause for optimism in the opinion of J. M. McKay, general agricultural agent, Canadian Pacific Railway. He based his view on improved moisture conditions and generous growth everywhere, which some points was the best since 1928.

Completing a sensational successful visit to Canada and the United States lasting several months, the Oxford Group sailed recently aboard the Empress of Australia for England under the leadership of Rev. H. Allen Viney. Their Canadian visit terminated with a house party at the Chateau Frontenac at which 600 members were present.

The death at Vancouver recently of F. W. Peters, former general superintendent, British Columbia district, Canadian Pacific Railway, severed one of the last remaining links on this continent with the pioneering railroad days of the early seventies. His service extended to nearly 30 years. He was born in Saint John, March 25, 1860.

Grant Hall, senior vice-president, Canadian Pacific Railway, back from three-weeks' inspection trip that took him to the Pacific Coast, stated that he had seen and heard much of an encouraging character during his trip and nothing of a contrary nature. He added that there was distinct revival of hope and restoration of confidence.

Farm management through the application of business principles, practical and theoretical knowledge and ordinary horse sense to farm problems is a necessity of this day of lowered prices. T. C. F. Herzer, manager Canada Colonization Association, told the Winnipeg Kiwanis at the Royal Alexandra Hotel, recently. The Association has extended its activities in Saskatchewan, where it now has 14 zone managers with 1,344 farms and a total of 467,000 acres under supervision.

More than 300 scientists from 31 countries attended the fifth meeting of the Pacific Science Congress opened at the Empress Hotel, Victoria, June 1 and continuing at the Vancouver Hotel, Vancouver, until June 14. It was the first time the Congress had met on the American side of the Pacific Ocean. Lord Rutherford addressed the Congress from his home in England, his speech being carried by radio close on 6,000 miles to Vancouver.

conditions, but within the past week over a considerable section of the south the crops have shown some signs of suffering and in nearly all districts of the Province at this stage rain would be welcome. Rather unfortunately the lateness of the spring season forced a considerable amount of crop in on stubble land, and this crop is the first to show signs of suffering.

In the central and northern regions, while the weather has also been very warm, there has been some further rain, and general conditions are quite favorable; although reports indicate that further moisture will be needed if the present weather continues.

The spell of hot weather was preceded by a week of low temperature in the central and northern districts, and in a number of localities frost was recorded of from four to eight degrees, damaging chiefly garden stuff.

Grasshopper Situation
The grasshopper situation has developed rather seriously in certain parts of Southern Alberta, and the Provincial Department of Agriculture is intensifying its poisoning campaign in these areas. The campaign is well organized under the direction of the departmental officials in co-operation with the Federal Government and the University, and nearly sixty poison-mixing stations are now in operation. The most serious outbreak is in the district north and northwest of Lethbridge, and it is so fairly serious in the district extending eastward and northeastward toward the Federal Government, with scattered outbreaks in the region north of the C.P.R. main line. It is estimated that some million and a half acres in the areas in the extreme south are seriously menaced. Good results are being obtained from the poisoning campaign, but the amount of poisoned-bait material has had to be considerably increased from estimates. The daily output of bait has now reached over 400 tons, and the total quantities of material used to date, in what has proved to be one of the heaviest grasshopper campaigns in the history of the Province, has been as follows: 2,000,000 lbs. of bait; 3,000,000 lbs. of sawdust; 15,000 gallons of arsenite; 16,000 gallons of molasses.

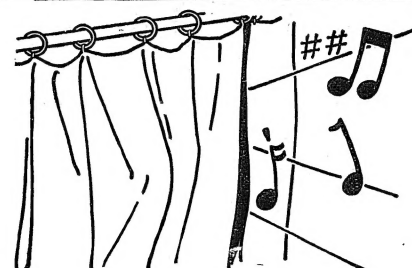

AN OLD INDIAN CUSTOM

Under the towering peaks of "Falling Rocks" mountain range, near Hazelton, B.C., of native graveyard is a blend of pagodas and totem poles. Though many of the Indians have been Christianized, complete miniature houses have been built over many of the graves. Clothes and belongings of the departed are placed inside.

In one skirts, shoes, corsets and mirrors, brush and comb are hung on the walls. In another an enlarged portrait stands against a trunk filled with garments and toilet articles. Over chiefs' graves stone pillars symbolical of their clan are carved. Food is placed in the houses almost daily. It is invariably carried away by wild animals such as squirrels and rabbits, but the Indians explain the spirits get the food through the wild life.

ALBERTA POOL CUT-OFF DATE

The cut-off date for the 1933-34 pool has been fixed at July 15 by the Alberta Wheat Pool. If any member desires to deliver wheat to the 1932-33 pool it must be delivered in wagon lots at country points on or before July 5, 1933 or billed out of country points if in cartload lots on or before that date.

Like a Shower

EXCEPT BETTER! Kellogg's Corn Flakes help you feel cooler all day through. These delicious flakes are so easy to digest they don't "heat you up."

For comfort that lasts, enjoy a bowl of Kellogg's instead of hot, heavy foods. Breakfast, lunch, the children's evening meal. Made by Kellogg in London, Ont.

Household Drudgery The Bane of Woman's Life

Nature intended women to be strong and healthy instead of weak and sickly, but how can a woman have good health when, day in and day out, she has to go through the household drudgery without any relaxation. Is it any wonder she becomes nervous and irritable, has hot flashes, faint and dizzy spells, shortness of breath, sinking and smothering sensations, and can't sleep at night.

Women who are weak and run down will find in Milburn's Heart and Nerve Pills a remedy to strengthen the system and bring back the much desired health.

Screens!

We carry a full line of FULL and HALF SIZE SCREEN WINDOWS. We can furnish you with SCREEN DOORS in two different thicknesses, painted, or in clear pine or cedar.

Our doors are of the best construction—mortise and tenon joints and properly planned.

APPRECIATION

The Battle River W.M.S. wish to express their thanks for help their neighbors and friends gave them in putting on the social last Wednesday. The picnic was a success, socially and financially.

ANNOUNCEMENT

Mr. and Mrs. Pehr Pehrson announce the engagement of their daughter Vestie Pauline, to Mr. Gordon T. Wattie, son of Mr. and Mrs. A. Wattie, Hughenden. The marriage will take place the early part of August.

CARD OF THANKS

We wish through the columns of The Times, to sincerely thank our friends for the many kindnesses shown our dear wife and mother in her illness, also for expressions of sympathy and floral tributes in our sad bereavement. We especially desire to thank Rev. Asper and the Gullekson and Dorchester Families.

Louis Pelland and Family.

BRIDE-TO-BE GIVEN SHOWER

A very enjoyable miscellaneous shower was held at the home of Mrs. John Ogren on Saturday, June 17th, in honor of Miss Agnes Anderson, bride-elect, who is leaving the district after having taught the Verdon school for three years.

A large number of friends from Verdon, Haultain and Nashville came to wish her happiness.

Little Doris Alin and Donald Johns brought in a basket containing the beautiful and useful present.

Lunch was served by the ladies and a delightful time was spent.

Former Judge Stubbs of Winnipeg, recently deprived of his seat on the candidate for the federal constituency of Mackenzie, Sask.
